

In the wake of the Equifax breach, we wanted to assure you that we are committed to the safety of your account and financial information. If you have been affected we wanted to make you aware of a few features we have in place. Funds will only be disbursed to the Holder of Record on each account and checks will only be mailed to the Address on file. This is also why a signature guarantee is required on all redemptions in the amount of \$25,000 or higher. While no system is perfect, these are just a couple of features that are in place to help protect your funds. Please call should you have further questions or concerns.

Sincerely,

Barry James, President / CEO
