Investment Objective

The James Mid Cap Fund seeks to provide long-term capital appreciation.

Investment Strategy & Process

The Fund invests primarily in equity securities of foreign and domestic companies that the Adviser believes are undervalued. Equity securities that the Fund will principally invest in are common stocks, preferred stocks and exchange traded funds ("ETFs") that invest primarily in equity securities. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus the amount of borrowing for investment purposes, if any) in equity securities of mid capitalization companies. Mid capitalization companies are defined as those companies with market capitalizations at the time of purchase that fall within the range of the S&P 400® MidCap Value Index.

The Fund anticipates investing across a range of industry sectors. However, certain sectors may be significantly overweighted or underweighted compared to the S&P 400® Index because the Adviser seeks the best investment opportunities regardless of sector. The sectors in which the Fund may be overweighted or underweighted will vary at different points in the economic cycle.

Morningstar Rating™

The fund invests in stocks of mid-cap companies which tend to be more volatile and can be less liquid than stocks of large-cap companies. Diversification does not guarantee a profit or protect against loss. Current and future portfolio holdings are subject to risk.

For each fund with at least three-year history, Morningstar calculates a Morningstar Rating[™] based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of the funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, and the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund with the scale and rated separately, which may cause slight variations in the distribution percentages.)

As of 3/31/17 James Mid Cap Fund was rated against the following numbers of Mid Cap Value over the following time periods: 341 funds in the last three years, 301 in the last five years, and 212 in the last ten years. With respect to these Mid Cap Value funds, the James Mid Cap Fund received a Morningstar Rating[™] of 2 stars for three year period, 2 star for the five year period, and 3 stars for the 10 year period.

Ratings are based on risk-adjusted return. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3, 5 and 10-year (if applicable) Morningstar Rating metrics. (Overall and 3-years 341 funds)

The S&P 400[®] MidCap Value Index is a recognized, unmanaged index of mid cap stocks considered to be Value stocks using Standard and Poor's methodology. One cannot invest directly in an index.

Price/Earnings ratio is a valuation of a company's current share price compared to its per-share earnings.

Price/Book ratio is a ratio used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share.

Fund holdings and sector weightings are subject to change without notice. The average annual total returns assume reinvestment of income, dividends and capital gains distributions and reflect changes in net asset value. The principal value and investment return will vary with market conditions so that an investor's shares, when redeemed, may be worth more or less than their original cost. Small-Cap investing involves greater risk not associated with investing in more established companies, such as greater price volatility, business risk, less liquidity and increased competitive threat. You should note that the James Advantage Funds are professionally managed mutual funds while the indices are unmanaged, do not incur expenses and are not available for investment. James Advantage Funds distributed by ALPS Distributors, Inc., 1290 Broadway, Ste 1100, Denver, CO 80203. Barry R. James, Thomas L. Mangan, David W. James, Ann M. Shaw, R. Brian Culpepper, Brian Shepardson, Trent D. Dysert, and Matthew G. Watson are registered representatives of ALPS Distributors, Inc.
